

This position will require access to ITAR and/or EAR controlled technical data, technology or source code, and requires that all individuals in this role be authorized to access such information

General Description:

The Maintenance Operator is an hourly, position reporting to the Maintenance Supervisor. The Maintenance Operator is responsible for providing manufacturing support and performs routine maintenance duties including rough carpentry, painting and basic equipment or facility repairs. This position requires an individual with general maintenance and plumbing knowledge. The Maintenance Operator works with supervision from Maintenance Supervisor or other Maintenance Mechanics. Dependability and attention to detail are required characteristics. The maintenance work environment involves the handling of hazardous chemicals. The ability to use a personal respirator is required. The physical demands of this position may involve standing for extended periods as well as frequent lifting of items weighing up to 50 lbs. (unassisted).

Primary Responsibilities:

- Achieve daily and specific goals
- Provide maintenance support to other departments
- Provide cleaning services to the entire R.E. Darling facility as assigned
- Repair and upkeep of facilities equipment
- Practice safe and efficient work habits

Education and Experience Requirements:

- High school diploma or equivalent
- Requires a minimum of 6 months experience in general maintenance, such as plumbing and general mechanics
- The ability to read simple instructions and follow simple diagrams
- Be or become certified in Forklift, Reach Lift, and Scissor lift
- Utilize tablet and CMMS

Respirator Use Requirement

Certain areas within the department may require the use of a respirator due to operational or environmental conditions. In accordance with safety regulations and proper respirator fit standards, employees assigned to these areas must be clean-shaven where the respirator seals to the face. This requirement ensures the effectiveness of the equipment and the safety of the operator.

Special Tasks and Focus Areas:

- Achieve daily and specific goals
 - o Complete daily tasks on time
