## FARM EQUIPMENT MECHANIC Eloy, Arizona

The Farm Equipment Mechanic is a critical technical role supporting Bridgestone's guayule agricultural operations at the Eloy, Arizona facility. This individual will be responsible for maintaining, repairing, modifying, and fabricating a wide range of farm, production, and support equipment to ensure maximum uptime and operational efficiency. The ideal candidate brings hands-on agricultural equipment experience, creative problem-solving ability, works well in a team environment, and the mechanical versatility to work across diverse equipment types.

### Responsibilities:

- Farm and Agricultural Equipment Maintenance
- Equipment Modification & Fabrication
- On-Site Processing Equipment Maintenance
- Truck & Vehicle Maintenance
- Shop & Safety
